Growth of a Hypothetical \$10,000 investment

Performance

	Three Months	Year to Date	1 Yr.	3 Yr.	5 Yr.	10 Yr.	Since Inception
Institutional Class	7.46%	16.03%	24.12%	17.20%	12.78%	12.98%	9.46%
Retirement Class	7.50%	16.07%	24.23%	17.29%	12.83%	13.01%	9.47%
Administrative Class	7.44%	15.81%	23.80%	16.78%	12.43%	12.67%	11.45%
Investor Class	7.42%	15.76%	23.73%	16.77%	12.36%	12.56%	11.31%
Russell 2000® Growth Index	5.52%	15.76%	21.06%	17.98%	12.14%	12.65%	6.87%

Performance data shown represents past performance and is no guarantee of future results. Past performance is net of management fees and expenses and reflects reinvested dividends and distributions. Past performance reflects the beneficial effect of any expense waivers or reimbursements, without which returns would have been lower. Investment returns and principal value will fluctuate and when redeemed may be worth more or less than their original cost. Returns for periods less than one year are not annualized. Current performance may be higher or lower and is available through the most recent month end at harborfunds.com or by calling 800-422-1050.

The Russell 2000® Growth Index is an unmanaged index representing the smallest 2000 stocks with the highest price-to-book ratio and future earnings. This unmanaged index does not reflect fees and expenses and is not available for direct investment. The Russell 2000® Growth Index and Russell® are trademarks of Frank Russell Company. The Russell 2000® Growth Index since inception returns use 10/31/2000 as the period begin date.

Retirement Class shares commenced operations on March 1, 2016. The performance attributed to the Retirement Class shares prior to that date is that of the Institutional Class shares. Performance prior to March 1, 2016 has not been adjusted to reflect the lower expenses of Retirement Class shares. During this period, Retirement Class shares would have had returns similar to, but potentially higher than, Institutional Class shares due to the fact that Retirement Class shares represent interests in the same portfolio as Institutional Class shares but are subject to lower expenses.

Investment Risks

Stocks of small cap companies pose special risks, including possible illiquidity and greater price volatility than stocks of larger, more established companies.

Stock markets are volatile and equity values can decline significantly in response to adverse issuer, political, regulatory, market and economic conditions.

Fund Facts	Institutional Class	Retirement Class	Administrative Class	Investor Class
Ticker	HASGX	HNSGX	HRSGX	HISGX
Fund Number	2010	2510	2210	2410
CUSIP	411511868	411512494	411511769	411511777
Inception Date	11/01/2000	03/01/2016	11/01/2002	11/01/2002
12b-1 Fee	None	None	0.25%	0.25%
Total Net Assets (\$MM)	468.791	354.671	0.849	8.141
Redemption Fee	None	None	None	None
Net Expense Ratio	0.87	0.79	1.12	1.24
Gross Expense Ratio	0.87	0.79	1.12	1.24

Expense ratio information is as of the Fund's current prospectus, as supplemented. Gross expenses are the Fund's total annual operating expenses.

	The Fund	Russell 2000® Growth Index
Alpha	1.45%	0.00%
R-Squared	90.50%	100.00%
Standard Deviation	12.16%	13.39%
Sharpe Ratio	1.30%	1.24%

Definitions:

Adjusted Price to Earnings (P/E) Ratio – the closing share price divided by the last 12 months of actual earnings per share. Only P/E's of 2.0 or greater are included. The higher the P/E ratio, the greater expectation there is for growth.

Alpha – a fund's risk-adjusted excess return relative to the benchmark.

Beta – measures fund volatility relative to the overall market. With a beta for every index at 1.0, a beta under 1.0 means the fund is less volatile and more than 1.0 means the fund is more volatile than the index.

Duration – an estimated measure of the price sensitivity of the aggregate market value of a portfolio of debt securities to changes in interest rates.

R-Squared – a measure of a fund's returns that are explained by movements in an index. A number lower than 70% suggests fund performance acts less like the index with performance more reflective of the active management of the fund.

Sharpe Ratio – measures return vs. risk; a higher number suggests less risk to achieve fund performance.

Standard Deviation – a statistical measure of historic volatility of a fund's returns; a higher number suggests greater volatility.

Beta is rolling three year, unless the Fund has a track record of less than three years, in which case it is since inception. All Risk Statistics are Rolling three year. If the Fund does not have a three year track record, the statistics will be listed as N/A.

Certain portfolio and risk statistics are provided by FactSet and Morningstar Direct.

The holdings, sectors or countries shown may change at any time and may not represent current or future investments.

As a result of changing market conditions, total net asset levels, expenses and other statistics may change at any time and may differ from those shown.

The total amount shown for sector, industries, or country holdings may be greater than 100% because of the inclusion of derivatives and the collateral securities supporting those instruments.

Investors should carefully consider the investment objectives, risks, charges and expenses of a Harbor fund before investing. A summary prospectus or prospectus for this and other information is available at harborfunds.com or by calling 800-422-1050. Read it carefully before investing.
